EDUCATION

MSc in Information Systems Management
The Hong Kong University of Science and Technology [2022-2023]
- Concentration in Technology Innovation & Entrepreneurship
- Awarded Targeted Taught Postgraduate Programmes Fellowships (UGC)

BEng in Financial Technology
The Chinese University of Hong Kong [2018-2022]
- Second Class Honours (Upper Division)
- Minor in Computer Science
- Minor in Data Analytics and Informatics
- Recipient of 3 Academic Scholarships & The TOYPA Future Leader Award

CERTIFICATIONS

Databricks Certified Data Engineer Professional
Databricks • 2026

Azure Solutions Architect Expert
Microsoft • 2025

Project Management Professional (PMP)
Project Management Institute • 2024

AWS Solutions Architect – Professional
AWS Certification • 2024

Azure Administrator Associate
Microsoft • 2025

Databricks Generative AI Fundamentals
Databricks • 2024

Alteryx Designer Advanced
Alteryx • 2024

Server Implementation
Alteryx • 2024

Server Administration
Alteryx • 2024

HackerRank SQL Advanced
Google • 2024

Google Certified Educator
Google • 2026

COMMERCIAL & TECHNICAL SKILLS

SALES & SOLUTION SUPPORT

Customer Discovery, Executive Workshops, Product Demonstrations, Solution Positioning, Proposal Support, Stakeholder Management, Cloud Advisory, Customer Success

PROGRAMMING

Python, SQL, Go, SAS, C, R, C#, JavaScript, HTML/CSS, Swift, MATLAB

CLOUD & PLATFORMS

AWS, Azure, Databricks, GCP, MS Fabric, GitHub, Jira, Cloudera, SSMS, MongoDB, Alibaba Cloud, Postman, MySQL

PROFESSIONAL EXPERIENCE

Global Management Associate **2025/07 - Present**
Consultant (Data Engineer & Analyst) **2023/07 - Present**
NCS Group (Full-Time)

- **Presales & executive engagement:** Supported 3 global deployments; led 10+ executive discovery workshops and product showcases, translating business needs into tailored solution propositions to drive service and platform buy-in among 500+ stakeholders.
- **Solution positioning & adoption:** Helped communicate the value of an enterprise AI platform for data engineering teams, connecting workflow automation and productivity improvements to user needs and adoption goals.
- **Customer solution advisory:** Advised banking, luxury retail, jewellery, public sector and conglomerate clients on cloud and on-premise data modernization using AWS, Azure, Databricks, Google Cloud, Cloudera and Microsoft Fabric.
- **Business-outcome delivery:** Delivered data pipelines, automated reporting and dashboards that enabled customer teams to improve decision support and reduce manual effort.

Selected client engagements

- **Commercial contribution:** Contributed to approximately $5K–$8K in daily revenue from services and product delivery through client engagement, solution recommendations and customer-focused execution.
- **Banking & Financial Services (4 clients):** Engaged tier-1 banking clients to understand analytics and credit-risk priorities, shape modernization solutions and support solution positioning; outcomes included migration of SAS workflows to Python (approximately 70% lower runtime) and 10+ Power BI/Qlik dashboards.
- **Public Sector & Conglomerates (3 clients):** Modeled and positioned Azure Databricks and GCP data-platform solutions aligned to organization-wide decision-making needs; standardized 100+ datasets and automated Alteryx processes that replaced 100+ manual Excel reports.
- **Luxury Retail & Consumer (2 clients):** Advised clients on data warehouse modernization options using Microsoft Fabric and Azure, aligning platform design with business and performance requirements; solution delivery improved QlikView load speed by approximately 15x.

OTHER WORKING EXPERIENCE

Website & Mobile Application Developer **2023/06 - 2023/11**
The Chinese University of Hong Kong (Freelance)

- Worked with stakeholders to clarify requirements and deliver 4 web-based mobile application projects on time and within budget, balancing user needs, scope and delivery constraints.
- Enforced rigorous code reviews and quality control frameworks to optimize software performance and responsiveness.

Technical Project Assistant **2020/01 - 2023/05**
The Chinese University of Hong Kong (Part-Time)

- Coordinated 50+ client-facing technical projects across AI/ML, cloud, application platforms and data visualization, aligning stakeholder expectations, delivery plans and technical teams.

Solutions Consultant Intern **2022/06 - 2022/08**
HKT Limited (Internship)

- Supported 15+ technical and commercial engagements with 30+ external clients; helped connect customer business priorities with cloud solution options and project recommendations.

Business Analyst Programmer Intern **2021/07 - 2021/08**
China Tonghai International Financial Limited (Internship)

- Assisted with securities and equity trading platform development, enhancing backend system logic using C# and Python, and supporting rigorous User Acceptance Testing (UAT).

Data Science & Software Engineering Internships **2020/07 - 2021/01**
Inclusive Business Lab & MotoNerv Limited

- **Inclusive Business Lab:** Engineered full-stack web architectures using Node.js, handled cloud environment setup on AWS, and deployed feature tracking alongside analytical data dashboards.
- **MotoNerv Limited:** Supported mobile product roadmaps by building cross-platform applications across iOS and Android, integrating backend architectures with Azure database deployments.

Technical Tutor & Educator **2020/01 - Present**
Self-Employed (Freelance)

- **University & Adult technical coaching:** Mentored university students and led adult upskilling cohorts on AI, FinTech, Python, SQL, and data governance through hands-on project building, data modeling, and code reviews.
- **Primary & Secondary STEAM curriculum:** Designed and delivered interactive courses across secondary and primary schools, introducing Python, block-based programming, and other STEAM related sectors to build computational thinking.
